Sammendrag: This report provides feedback from a Listening Event held in Salford on March 10th, 2014 which explored issues in relation to diversity and inclusiveness and dementia and captured the views of professionals, service providers and people living in the Salford area. The aim of the event was to learn from and with people from different communities how we (Salford Institute for Dementia, Greater Manchester West Mental Health Foundation Trust, Alzheimer's Society and other partner organisations) can meet the needs of people with dementia in a way that responds to diversity by promoting inclusivity.
