Applied Research in Earth Science (ARiES) Summer School

June 5th – July 28th, 2017
Los Alamos National Laboratory (LANL)

What is ARiES?

ARiES is an 8-week summer school that will pair geoscience (or related field) graduate students with LANL scientists to collaboratively study challenging geoscience-related topics.

Who can apply?

Graduate-level geoscience (or related field) students. Ph.D. level students will be given priority, but Masters level students will be considering depending on their completed coursework and recommendation letter. U.S. Citizens only.

For more information about the ARiES Summer School, including application materials, visit the ARiES website at <http://aries.lanl.gov>

The following material must be submitted with your application:

1. Undergraduate and graduate transcripts
2. Current CV, including a full list of publications and presentations
3. Letter of recommendation from your advisor
4. One-page statement on research interests and how participation in the ARiES Summer School will be beneficial for your research and career plans
